OVER THE WORLD IN A WEEK.

—Six persons died from sunstroke in New York city one day last week.

—While drunk, Charles L. Goodenau walked into the river at Charleston, W. Va., and was drowned.

—A hail storm which passed over Minnesota last week destroyed thousands of acres of wheat and corn.

—A terrible wind and rain storm visited Keokuk, Iowa, last week and damage to property was very severe.

—Henry Hinson was hanged at St. Louis Thursday last week for the murder of his wife Feb. 2, 1880.

—Eugene Bonnick and his wife committed suicide at Denver, Colo., last week because of domestic troubles.

—Chris Young, who killed Geo. Ferguson, Dec. 10, 18 9, at Corder, Mo., was hanged on Thursday last week at Lexington, Mo.

—Two Chinese lepers are at large in New York city. The Charity Hospital authorities declared they had no authority to hold them.

—The foundations of all the World's Fair buildings, recently erected at Chicago, will have to be taken up. The money loss will be about \$250,000.

—Mrs. Ex-President Polk, aged 88 years, is very ill at her home in Nashville from general congestion of the system, and is not expected to recover.

—In Winston county, Alabama, masked robbers compelled Col. John Cagle to show them where he hid his money, by which they got \$600 in cash and escaped.

—O. L. Karnes, a lumber contractor, and John Estis, one of his men, fought at the mouth of Big Sandy, Tennessee, Karnes was killed. Both men lived at Birmingham, Ky.

—Forty people assembled at Springfield, Ill., last week, for the purpose of organizing the Peoples party. State Representative Taubeneck was the leading figure present.

—R. Dudley Fryer, a Memphis capitalist, was dragged and robbed in Memphis both one day last week by a man representing himself as John A. Morris, of New Orleans.

—J. O. Wynn, State business agent of the Farmers Alliance of Georgia, is a defaulter. An investigation at Atlanta indicates that the shortage will exceed \$50,000. Wynn's fall is due to speculation.

—Negroes in the neighborhood of Galatin, Tenn., have organized a band of "Black Caps." They ordered a prominent physician to leave the county, and the white people will back the doctor in his resistance.

—Senator Call, of Florida, to whom Gov. Fanning has refused a certificate of re-election, says the Senate will have no trouble in deciding in his favor, as the journal of that body is full of precedents sustaining his claim.

—The Farmers Alliance of Maryland, in convention at Baltimore last week, declared that "the Farmers Alliance of the State of Maryland is in no way antagonistic to United States Senator Gorman." This practically puts the Alliance of that State in line with the Democratic party.

—A Tennessee girl last week piloted the revenue officers to the illicit still of John and Bob Steward, in the Iron mountains, near the North Carolina line. The still had been in operation for over a year, when the girl volunteered her services, and met the party 100 miles away to avoid being known in the matter.

—Mrs. J. A. Wicklin, of Bolton township, Kansas, who three weeks ago was brutally assaulted and nearly murdered, last week found nailed to her door a letter written in red ink, with skull and cross bones over it, warning her to leave the country forever, or she would fill a coffin within a week. This is the same neighborhood where Mr. and Mrs. S. A. Donnelly were mysteriously murdered a week ago. The people are greatly excited.

NOTICE.—The sale of the booth privileges of the Hazel Green Fair Association will take place on Wednesday, Sept. 16, at 2 o'clock P. M.

STATE SUNSHINE AND SHADOW.

MISS CLYDE RAGLAND, of Bowling Green, was thrown from a runaway horse at that place, and her foot hanging in the stirrup she was dragged for two hundred yards by the frightened animal, which kicked her several times. She was picked up unconscious and died shortly afterward.

ANDY CRUTCHER was terribly mangled by falling into a coal bank about two and a half miles north of Catlettsburg, at the Key Creek mines, last week. Dr. Martin was called to his aid, and says the chances for his recovery are small.

A SUIT involving \$5,000,000 or 200,000 acres of land was last week filed at Pineville by Archer Harmon, of Louisville, who was employed as an agent in the sale to a syndicate and was to receive one-third of the purchase price.

NANCY HANKS, the famous Kentucky trotting mare, was driven a mile over the Rochester (N. Y.) track last week by Bud Dobbie, to beat her record of 2:14 for \$2,000, and succeeded in lowering the figures 1 1/2 seconds.

The mangled remains of Thos. Lindsey were found on the Paducah, Tennessee, and Alabama railroad near Gilbertsville, in Marshall county. It is thought he was murdered and afterwards placed on the track.

NELSON JACKSON, a prominent citizen of Magoffin county, was seriously injured by a saw log rolling over him last week. The right leg was smashed to the knee and had to be amputated.

FORD HEATH, a young son of F. R. Fitzharris, of Paris, fell from a second story window Thursday evening of last week and, strange to say, escaped without serious injury.

BREUGLER entered the residence of Tom Vivett, near Clinton, and robbed him of \$1,000 in cash. Two-thirds of the sum he had received for his farm the day previous.

NEAR Lexington, Thursday week, Chris Taylor shot Joe Marshall, two balls penetrating the anatomy of the wounded man. The wounds are not dangerous.

INSURANCE agents of Louisville claim that the city is not sufficiently supplied with fire protecting apparatus, and have demanded more engines and firemen.

THE civil service examinations for positions in the departments at Washington will be held in Louisville tomorrow (Saturday) at the U. S. court room.

REV. DR. CROOK, of the Trinity Methodist church, Louisville, has been elected President of the University of the Pacific, located at San Jose, Cal.

WM. HOWARD, who murdered Phil Dryhouse in Louisville in 1881, has just been discovered at Adelaide, N. S. W., where he is living in luxury.

DON HIGHTOWER, of Bowling Green, blew into the barrel of an old rifle, and the latter reciprocated by blowing his head off.

CHAS. HART, a drunken tough of Louisville, destroyed \$300 worth of furniture belonging to his mother one day last week.

THE Park Commissioners of Louisville have changed the name of Jacob's Park to Irquois Park, and the people are kicking.

WM. HUCKLEBERRY, in attempting to escape from Allen county deputy sheriffs one night last week, was fired upon and killed.

LOUISVILLE, following the example set by Lexington some time ago, will pave some of her streets with vitrified brick.

THE wind and hail storm which visited South Christian county last week did great damage to corn and tobacco.

EIGHT prisoners on the chain gang at Bowling Green made a break for liberty, and three of them got away.

The broken Falls City bank of Louisville last week declared a dividend of 10 per cent. on all its debts.

FRANKFORT will put on her best attire for the inaugural of Gov. Brown, September 1.

THE High Bridge camp meeting ground consisting of ten acres was last week sold for \$4,500.

WINCHESTER's assessment for 1891 is \$248,716 greater than that for 1890.

HAZEL GREEN HERALD.

SPENCER COOPER, Editor.

HAZEL GREEN, KY.:
FRIDAY, - Aug. 21, 1891.

Morgan and Breathitt will each have five votes in Democratic conventions hereafter, and instead of four, Wolfe drops to two.

That Georgia "business agent" who got away with \$50,000 belonging to the State Alliance, had an eye to the main chance, and might soon have been a full-fledged monopolist.

The final test of the Government rainfall expedition was advertised to take place Sunday at Midland, Texas, and in proof that it was a success, it rained here in Hazel Green that day.

While the Georgia Legislature was recently wrestling with the prohibition problem, a full grown tiger, a "blind" one, alive and kicking, was discovered in the capitol building at Atlanta.

The death of George Jones, editor of the New York Times, removes from New York journalism all save one of the old time leaders. We Dana ken the survivor, unless it be the mugwump of the Sun.

The outside world may be in ignorance of the fact, but all the same there is a body of 700 acres of land in this county, very rich in all of the finest quality, and it lies within four miles of the K. U. railroad.

Mrs. Sophia Litterer, of Louisville, has sued the Pioneer Worsted Company of that city for \$25,000 damages, alleging that her arm was wanted to that extent by being caught in a cog-wheel of the defendant's machinery.

A celestial conundrum faces the World's Fair commissioners. China has been invited to take part in the exposition, and like Barba, is willing, but the Chinese exclusion law prohibits that people from entering this country.

A case of mistaken identity: The Lexington Transcript copied an editorial paragraph from THE HERALD of the 7th inst. and gave credit to the Jackson Hustler. What's the matter with our old friend Polk? Been mixing drinks?

The Republican National committee, now that Blocks-of-five Dudley has made his exit, might secure Mortimer, the manager of the National Loan Association at Chicago. He would prove a powerful adjunct in raising campaign funds for 1892.

The official plurality of Hon. John Young Brown over his Republican opponent, Major A. T. Wood, is not far from 27,885. Estimating the vote of Floyd, Elliott and Knott the same as cast in 1887, the total vote of the State will be as follows: Brown, 144,089; Wood, 116,204; Erwin, 25,046; Harris, 4233. Total, 289,570. The total vote is 23,588 more than was cast for Treasurer in 1889, 54,916 less than was cast for President in 1888, and 11,083 more than was cast for Governor in 1887. Mr. Brown's vote is 800 or 900 more than that given for Buckner in 1887, but it is 38,718 less than the vote for Cleveland. The Republican vote for Maj. Wood is 38,930 less than that given to Mr. Harrison and 10,660 less than that drawn out by Mr. Bradley in 1887. The Peoples party got 70 per cent. of its strength from Republican ranks, and as an ally to aid the latter in defeating the Democratic party, was therefore a complete failure.

Consumption Cured.
An old physician, retired from practice, having had placed in his hands by an East India missionary the formula of a simple vegetable remedy for the speedy and permanent cure of Consumption, Bronchitis, Catarrh, Asthma, and all Throat and Lung Affections, also a positive and radical cure for Nervous Debility and all Nervous Complaints, after having tested its wonderful curative powers in thousands of cases, has felt it his duty to make it known to his suffering fellow. Actuated by this motive and a desire to relieve human suffering, I will send free of charge, to all who desire it, this recipe, in German, French or English, with full directions for preparing and using. Sent by mail by addressing with stamp, naming this paper. W. A. NOYES, 320 Powers' Block, Rochester, N. Y.

Scrofula cannot resist the purifying powers of Ayer's Sarsaparilla. Sold by druggists.

MORGAN COUNTY.

Kael Evolutions.
Come listen now, ye renegades,
While I proclaim your doom,
The g. o. p. has need your aid
To cheer its Democratic boom.
I knew you'd catch the party ail,
And said within my heart,
What can a party do but fail,
With such a dismal start?

Some demagogues from other States,
With others from Kentucky,
Would cry out "rand" in loud debates,
Till some thought they were plucky.
One told us he was flesh and blood,
As though we might mistake
Him for a god that chivied his end
And came to rule our State.

Third party "likes," how do you feel?
For mustering up the seep-goats
You have no contrivance real,
And lost your grip and votes.
Such men as you who offer sleek,
And public favor lack,
Who talk so loud and run so weak,
You stay at the track.

I'd crawl off now and try to die,
Unless I could forget
That I had worked through wet and dry
For the meanest party yet.
I know you claim they will not steal,
Like the two old parties do,
But now you see how the people squeal
At the thought of raking you.

You are a chip from the two old blocks,
Or rather the refuse,
Fraud divided in two flocks,
You have combined to use.

Republicans and renegades,
Kentucky's not for you,
You hear the clatter of our spades,
Here's what we're going to do.

Go dig a grave both deep and wide,
And roll them up in crape,
And put them in it side by side,
Be sure that none escape.

All Democrats, rejoice with us,
And all your strength renew,
Be not misled by party fuss,
Victory is ours in Xmas eve.

David Ward and William Osborn had an old-fashioned club and fist fight a few days ago. Frank Ward also took part in the tussle. Killing was prevented, but the result is bruises, hard feelings and some court money.

Some of our merchants are somewhat staggered over postal cards received by last mail, postmarked at Chicago, without signature and read as follows: "Be wise while you live, for you'll be a long time dead."

D. W. Vest is visiting in Virginia. Today his wife returning from town and while helping her little boy off her horse he fell, breaking his leg.
Heath Hartley, Cyrus Perry and J. F. Havens have bought a new threshing machine, which will be in soon.

Robert Woolery left yesterday for Harrison county, where his father is in a dying condition.

Died—On the 7th, infant child of J. S. Nickell. On the 8th, infant child of George Tackett.

Born, last week, to the wife of Noah Lovely, a boy. Name, Andy Thomas Pieratt.

A. C. Nickell, Sr., is selling a patent fence right in this part of Morgan.

Lewis Hylton last week bought a horse of Noah Lovely for \$125.

N. B. Mazer, of Mt. Sterling, is visiting in this locality.

August 11. BLURT.
Born, on the 17th, to the wife of "Zac" Dennis, a boy.

Mrs. F. M. Thomas, from St. Helena, is visiting in town.

George Combs, from Owsley county, was visiting here last week.

Elder D. C. Combs recently closed a meeting at the mouth of Lick Fork on Licking river with 62 additions.

Miss Clara Pieratt has returned from a protracted visit at Mt. Sterling, accompanied by Mrs. Thomas Jones, of that city, who after staying a few days in town left to visit relatives at Hazel Green.

The Burning Springs association of Regular Baptists was held at Mount Olivet, a few miles north of this place, beginning last Friday and closing Sunday. All their churches were well represented and large congregations each day.
A great many biblical scholars teach that we are living in the "time of the end," and a close study of the "signs of the times," together with the prophetic statements concerning that day, will almost convince any one that such is the case. For instance, in the eleventh chapter of Isaiah, sixth verse, the prophet says that that day children will lead lions about with perfect safety. We also read about Noah keeping lions in the ark during the flood, and as a fulfillment of the above prophecy, on last Thursday one of the Noahs under the control of Miss Belle Pieratt, and being assisted by Willie Ward and Miss Cora Clark, was conducted to an altar at the residence of Mr. B. D. Biven, whereupon Rev. R. D. Biven, after the proper demonstrations, pronounced them the best of friends until death should separate them, and in a few years I expect a fulfillment of a part of the third verse of the eleventh chapter of Zachariah.

August 18. BLURT.

To Teachers, School Officers and Parents of the Public Schools of Wolfe county: Notice is hereby given that the Wolfe County Teachers Institute will be held at Mt. Sterling, Aug. 24-28, 1891. All are respectfully invited to attend.

ANNOUNCEMENT.

We are authorized to announce GEORGE W. DRAKE as a candidate for sheriff of Wolfe County, subject to action of the Democratic party.

We are authorized to announce WEEDEN CONGLETON as a candidate for sheriff of Wolfe County, subject to the action of the Democratic party. He elected, JOHN T. CENTER will be his deputy.

We are authorized to announce W. A. BYRD, of Tontona, as a candidate for Sheriff of Wolfe County, at the August election, 1892, subject to the voters of the county.

Mr. Byrd says he is a Democrat, and expects to remain one; he does not believe in fraudulent means of securing county office, and if honored to the position of Sheriff will perform the duties regardless of person or party.

We are authorized to announce JONAS F. VANSANT, of Campton, as a candidate for Circuit Court Clerk of Wolfe County, subject to action of the Democratic party. Had 8 years experience as Deputy Clerk. Your support and influence respectfully solicited.

We are authorized to announce J. B. HOLLON, present County Clerk, as a candidate for Circuit Court Clerk of Wolfe County, subject to action of the Democratic party. Your support and influence is most respectfully solicited.

Get ready and go to Lexington next Thursday. Only cost you \$1 there and back.

Married, on Sunday morning, James Gilley and Miss Mary Belle Ross, Rev. Isaac E. Murphy officiating.

Mrs. Louisa Wilson, Green Butler, Troy Pieratt and Lou Tyler each have our thanks for a bountiful supply of fine tomatoes.

Married, Friday, the 14th inst., Capt. C. C. Cope, of Breathitt, and Mrs. Taylor, of Dayborough, Rev. J. T. Pieratt officiating.

Miss Inez Lusk gave birthday party Wednesday night of last week, and all the young folks of town were invited and had an enjoyable time.

In the primary election for Sept. 5th all who voted the Democratic ticket prior to August 3, and pledge their support to the nominees, will be entitled to vote.

Owing to a rush of matter we are compelled to leave out some correspondence and several communications, but we hope soon to be able to accommodate all comers.

Mrs. John Davis, of Mariba, Tuesday sent our better: five of the finest tomatoes we have seen this season, for which she has our thanks. The five weighed 51 pounds.

A look at the announcements in this paper will show that J. T. Center is running as the deputy of J. W. Congleton for sheriff of Wolfe County. Mr. Center is quite popular, and what figure this move will cut in the race remains to be seen.

See the excursion advertisement on this page. Jackson to Lexington and return only \$1.50. The fare from Tontona to Lexington and return is only \$1, and everybody in Wolfe county ought to go. You will never have another such opportunity.

Everybody in Eastern Kentucky ought to bear in mind that the Hazel Green Fair will be held Sept. 29 and 30 and Oct. 1 and 2, and prepare their exhibits for the same. The premium list is a very liberal one, and there is a chance for most everybody to draw a prize.

We acknowledge the receipt of a complimentary press badge to the Winchester Fair, Sept. 8 to 12, inclusive, and one of its handsome catalogues. This is one of the best fairs in the bluegrass circuit, and we advise all who wish to attend "a fair as is a fair," to visit Winchester on the dates named.

In crossing a bridge which spans a ditch in a field belonging to J. T. Day, Miss Rosa Trimble and a daughter of Calvin Swango, near town, came near losing their lives on Wednesday of last week. In rearing the horse back to open a gate, the animal locked off the bridge into the ditch, but fortunately the young ladies slipped off before the horse fell. The horse fell backwards, and a crowd had to be summoned from town to extricate it from its perilous position.

We acknowledge the receipt of an invitation to the marriage of Miss Julia Cecil, of Cedar Bluff, Va., and Mr. Wm. H. John, which will take place next Wednesday at the home of the bride's father, R. F. Cecil. THE HERALD extends congratulations and assures Miss Julia that her many friends here unite in wishing her much joy.

NOTICE.—The Board of Trustees of every school district in Wolfe county is hereby invited to be present at Wolfe county Teachers' Institute on Friday, August 28, 1891, at 10:30 A. M., as that hour is set apart for them and an exposition of the school law. Respectfully,
H. N. HORTON, Co. Supt.

Are you going? Where? Why to Lexington on the excursion next Thursday. Such an opportunity will never offer again, and we advise all to avail of the present opportunity. The fare from Tontona to Lexington and return is only \$1.00, and everybody ought to go.

We have received a complimentary ticket to the Beattyville Fair, which is to be held Sept. 2, 3 and 4, and return thanks for the same. This will be the first fair ever held at Beattyville, but the officers and managers are wide awake and promise a first-class exhibition.

Dr. E. O. Guerrant began a meeting at the Presbyterian church in this place on Monday evening, and preached for us morning and evening, closing his meeting Wednesday night and leaving for Gillmore Thursday morning.

The Parent of Insomnia.
The parent of insomnia or wakefulness is in nine cases out of ten a dyspeptic stomach. Good digestion gives good sleep, insomniacs interfere with it. The brain and stomach sympathize. One of the prominent symptoms of a weak state of the digestive organs is a disturbance of the great nerve centre, the brain. Invigorate the stomach, and you restore equilibrium to the great centre. A most reliable medicine for the purpose is Hostetter's Stomach Bitters, which is far preferable to mineral sedatives and other violent narcotics which, though they may for a time exert a soporific influence upon the brain, soon cease to act, and invariably injure the tone of the stomach. The Bitters, on the contrary, restore activity to the operations of that important organ, and their beneficent influence is reflected in sound sleep and a tranquil state of the nervous system. A wholesome impetus is likewise given to the action of the liver and bowels by its use.

Maytown Missiles.
The Peoples party craft, Black Rover, owned by S. B. Erwin, started from this place on the 8th of August, bound on a voyage up Salt river. Her crew was composed as follows: Jordan Wills, captain; Frank Williams, first mate; John M. Henry, second mate; Jackson Ratcliff, cook; C. W. Clark, secretary and treasurer of the expedition, and we suppose was well supplied with the necessities furnished by the owner of the craft. The captain wished to take Rev. W. W. Manker along as chaplain, but the Republicans of this place objected for the reason that Black Rover was going to a country entirely too hot to suit his constitution. They also objected to his going because of the fact that they will want and need him here in '92. The Black Rover's cargo consisted of the dead political bodies of the third party too numerous to mention. When everything was ready Rev. J. W. Kendrick asked the blessing of a kind Providence on the expedition. The Black Rover then cut her cable, raised her anchor, and with Samuel Bays standing on her stern with hat on his cane crying three cheers for our Kansas friends and the Peoples party, she sailed away and passed forever out of sight.

HOME HINTS AND HELPS.

—Old napkins and old tablecloths make the very best glasscloth.

—To clean out the steel tub it over-stained and in forty-eight hours wash with unslaked lime, finely powdered, until the rust disappears.

—Strawberry or Raspberry Ice: Make syrup with three quarts of sugar and a quart of water, add the juice of two lemons and one quart of strawberry or raspberry juice, then freeze.

—N. Y. World.

—A very good shampoo is made of salts of tartar, white castle soap, bay rum and lukewarm water. The salts of tartar will remove the dandruff, the soap will soften and clean the hair thoroughly, while the bay rum will prevent itching cold.

—Bread Pudding: Beat three eggs with three tablespoonfuls of sugar, a little nutmeg or any desired flavoring. Fill your baking dish nearly to the top with sweet milk. Add a pint of fine, dry bread crumbs, and bake for a little over an hour.—*Detroit Free Press.*

—The tomato is an excellent purifier of the blood, and the following is a choice mode of preparing it: Place the tomatoes in a Dutch oven for a few minutes before the fire, adding a very little vinegar. When they are warmed through peel off the rind and eat with any kind of roast meat.

—Thickened Cream: Heat one cup of cream and one of milk together. Melt the tablespoonful of butter, and when bubbling add one tablespoonful of cornstarch. When well mixed add the hot cream, stirring as it thickens. Add salt and then pour it over the hot cream.—*Ladies Home Journal.*

—Creamed Potatoes: Cut cold boiled potatoes in small pieces, put in stew-pan, sprinkle a little salt and flour over them, cook four or five minutes, then paring and put in the pan, and over the whole pour a pint of sweet milk. When this is thickened add a lump of butter or a teaspoonful of beef drippings.—*Boston Herald.*

—Green Pea Soup Maitre: Boil in two quarts of water one quart of old green peas and a large sprig of mint, until they can be rubbed through a sieve; add to the liquor a pint of young peas, the hearts of two heads of lettuce, a handful of spinach cut small, one onion and a quarter of a pound of butter add salt and white pepper to suit taste, boil half an hour, serve with fried bread.—*Boston Herald.*

—Apple Pudding: One pint of flour, one egg, one-half teaspoonful of salt, three-quarters of a cupful of milk (may be replaced by cream), the rind of an egg, one teaspoonful of baking powder, three large apples quartered. Cut the butter up in the flour and add salt and baking powder. Beat the egg well and add the milk and sugar to the flour. Spread the mixture about half an inch thick in a well-buttered pudding dish. Stilet the apples in and sprinkle well with sugar. Bake three-quarters of an hour in a moderate oven. To be eaten warm with milk and sugar.—*Good Housekeeping.*

SNOW IN ENGLAND.

ow it affects the small animals of the Forest.

Snow generally catches animals in England unprepared—but the hedgehog, who is comfortably asleep, rolled up in a coat of leaves—and they are put to all kinds of shifts to find food and escape their enemies. The more open and exposed the districts, the greater the difficulties. Where there are thick woods and hedges, and above all, running water, birds and beasts alike can find dry earth in which to crawl, or scratch, or green things to nibble, and water to drink. But the great chills—down a heavy snow-storm sends to drive from the open country every living creature that dares to move. All the day the snow falls, a heavy fall the leaves, which allow the snow to cover them, all but a tiny hole made by their warm breath, do not stir. Only towards noon, if the sun shines a little, and the morning after, when the beams, and perhaps another in the afternoon, at a different angle to the surface, to catch the last slanting rays. Squirrels, which are often supposed to hibernate, only retire to their nests in a very severe and prolonged frosts. A slight fall of snow only amuses them, and they will come down from their trees and scamper over the snow-covered heath, in immense enjoyment. What they do not like is the snow on the leaves and branches, which falls in showers as they jump from tree to tree, and betrays them to their enemies, the country boys. During a mild winter they never neglect to make a central store of nuts, and instead of storing them in big hoards near the nest, just drop them into any convenient hole they know of, near. Like the squirrels, rabbits seem rather to enjoy the snow at first. Like many men, they require a dry, bracing atmosphere, and sea-breezes and frost suit them; and the morning after, when snowfall their tracks show where they have been scratching and playing in it all night. But after a deep fall they are soon in danger of starving. Though not particular as to quality, they like their meat "reg'lar," and with all the grass covered with a foot of snow, their main supply of food is out off. If there is a sharp field near they will scratch away the snow to the roots, and soon destroy the crop. If not, or if the surface of the snow is frozen hard, the hungry bunnies slip the bark from the trees and bushes.—*Interior.*

The Leading Story of the August

Wide Awake.

A delightful reminiscence of Lafayette's last visit to America, is contributed by Sarah O. Jewett; it has a full-page illustration by Gustav. "The Bride's Bouquet" is a charming story of a good deed, and "The Silent Lie" is an admirable ghost story. "Poleberry Juice and Mullein" by Kate Upson Clark, is a little tale that reveals some of the funny toilet secrets of country girls a generation ago. "Mr. Brown's Play-fellow" by J. Loxley Rhee, "Shells of Sea and Land," by Will M. Clemens, "The Poppy Bee," by Mrs. Hall, and "How to Dry Starfishes," by Louisa Lyndon, are good short articles for the lovers of natural history. "How the Cossacks Play Polo" is a terrible and dramatic story of a Russian field-polo indulged in by officers of the Imperial Guard; it is by Madame de Meissner of the Russian legation. "What Seven Indian Boys Did" is a true account of some knowledge of the Algonquians, boys, by Francis C. Sparhawk; Margaret Sidney's "Peppers" serial in this number has all the interest of a good novel. "Miss Matilda Archaebau Van Horn," a story known to the Cambridge boys, by Francis C. Sparhawk, is full of amusing developments. "Marietta's Good Times" are really good times. "Men and Things" pages abound with original anecdotes. The poems are by Kate Putnam Osgood, Maria Johns Hammond, Eli Shepperd, Jane Ellis Joy and Richard Burton. Especially good things for veranda reading are the Margaret-Patty Letter, by Mrs. William Claflin, and the fine ballad by Mrs. Harriet Prescott Spofford, "Pope's Mother at Twickenham."

As she enters womanhood, every young girl needs the wisest care. Troubles beginning then may make her whole life miserable. But the troubles that are to be feared have a positive remedy. Dr. Pierce's Favorite Prescription builds up and strengthens the system, and regulates and promotes every proper function. It's a generous, supporting tonic, and a quieting, soothing nerve—a legitimate medicine, not a beverage, free from alcohol and injurious drugs. It corrects and cures, safely and surely, all those delicate derangements, weaknesses, and diseases peculiar to the sex. A remedy that does cure is one that can be guaranteed. That's what the proprietors of "Favorite Prescription" think. If it doesn't give satisfaction, in every case for which it's recommended, they'll refund the money. No other medicine for women is sold on such terms. Decide for yourself whether something else sold by the dealer, is likely to be "just as good" for you to buy.

The Hon. J. W. Fennimore is the Sheriff of Kent Co., Del., and lives at Dover, the County Seat and Capital of the State. The sheriff is a gentleman fifty-nine years of age, and this is what he says: "I have used your August Flower for several years in my family and for my own use, and found it does me more good than any other remedy. I have been troubled with what I call Sick Headache. A pain comes in the back part of my head first, and then soon a general headache, until I become sick and vomit. At times, too, I have a fullness after eating, a pressure after eating at the pit of the stomach, and a sourness, when food seemed to rise up in my throat and mouth. When I feel this coming on if I take a little August Flower it relieves me, and is the best remedy I have ever taken for it. For this reason I take it and recommend it to others as a great remedy for Dyspepsia, etc."

Use Pearline

As long as you use the old wash-board and what goes taken from it. as you use the old there'll be hard waste. That's with it, and can't be taken from it. That's what it was made for. It's the rub, rub, rub, on it that ruins the clothes. It's the wash-board that wears you out. You don't need it. Away with wash-day! You don't need that, either. You don't set apart a day for washing the dishes. Wash the clothes in the same way, with no more work, a few at a time. But you'll have to use Pearline to do it. Pearline only can rid you of wash-board and hard work; with it you can do your washing when you like. And you can do it safely, too. Directions on every package.

the peddlers and prize givers, who say their imitations are "as good as" or "name as" Pearline—IT'S FALSE—Pearline is never peddled and has no equal. Sold by all grocers. 246 JAMES FYLE, New York.

A SERIOUS MISTAKE.

Many mistakes are done in the treatment of constipation. The common opinion is that all require the same treatment. The medicine forces evacuation of the bowels. A great error. Medicines simply purgative, correct no morbid condition, consequently their use is followed by greater constipation. A remedy to be effective and permanent, must be composed of tonic, alterative, corrective and cathartic properties. These are admirably combined in Dr. Tait's Liver Pills. It is not a purgative. It does not do the sufferings that result from inactive bowels. They give tone to the localities, stimulate the secretions, and increase important functional action of the stomach and liver.

Inter-State Alliance Lesson.
No. 6.—FOR SEPTEMBER.

QUESTION. What is political economy?
ANSWER. It is the science of administering the affairs of government.

Q. What is politics?
A. Webster's unabridged dictionary gives the following definition: "The science of government; that part of ethics which has to do with the regulation and government of a Nation or State, the preservation of its safety, peace and prosperity; the defense of its existence and rights against foreign control or conquest, the augmentation of its strength and resources, and the protection of its citizens in their rights, with the preservation and improvement of their morals."

Q. What, then, is the difference between the terms: "political economy," and "politics?"
A. There is but a little, if any. Both have reference to the proper and just administration of the affairs of government. While the science of political economy aims to reach the best methods of government, the common acceptance of the meaning of the word politics seems to include all the methods employed to attain that result. Thus the management of political parties, the means used to obtain party supremacy, although frequently of a very questionable nature, is commonly called politics, although it may not tend to a proper and just administration of government affairs.

Q. What is the duty of the Alliance with regard to questions of political economy?

A. "To labor for the education of the agricultural classes, in the science of economical government, in a strictly non-partisan spirit."

Q. What do we understand by this?

A. That it is the mission of the Alliance to educate its members and others on those political questions that affect their rights as citizens of every capacity.

Q. What are we to understand by the words "in a strictly non-partisan spirit?"

A. That in the education of the masses the creeds, policies and principles of political parties, as such, shall be ignored, and that the groundwork of education be laid upon the eternal principles of justice and right without reference to political parties.

Q. Suppose that, in following this line of teaching, the Republican party is found to antagonize the principles and demands of the Alliance; what is expected of the Republican members of the Alliance?

A. They are expected to exercise their intelligence and patriotism, and to place their votes "where they will do the most good." No true member of the Alliance will vote for a man or a party that antagonizes the principles and demands of the order.

Q. Suppose that both the Democratic and Republican parties are found to oppose the principles and demands of the Alliance; what hope, then, has Alliance of attaining its objects?

A. They have left the recourse of voting for and with some other party or taking independent political action.

Q. But, would this not be a violation of its non-partisan principles?

A. No. They are only enjoined to educate from a non-partisan standpoint; that is without reference to the creed or principles of any party. They leave themselves free to act as they see fit and as necessity demands. They would be an array of fools and cowards, unworthy of the name of freemen, if they tied themselves either expressly or by implication to any political party. It would be worse than folly to make their demands without reserving the right to enforce them. The experiment is being made as to whether either of the existing political parties will concede to our demands. We are not asking promises. We have been fed upon that kind of diet until our bones rattle. We want relief and we want it now. We can get it after a while by ourselves. While we bind no one to vote for any political party, we reserve to ourselves every available means to enforce our demands, even to the taking of independent political action. No man has any greater right to say that our objects can be attained through the Republican and Democratic parties than some other man has to say they can't be. The man who opposes the organization of another party, or taking independent political action, is a bitter partisan himself. Whenever the people are satisfied that relief can not be attained through either of the existing political parties, nothing can prevent them from acting independently. Let the work of education be in accordance with our principles, and not according to the Democratic or Republican faith, and all will be well. The members will act as they please, and if their education is unimpaired by partisanship, they will act right and vote right.

Q. Upon what is the science of political economy based?
A. Upon the rights of a man, collectively and individually.

Q. What are the fundamental or natural rights of a man?
A. The right to "life, liberty and the pursuit of happiness."

Q. What do we understand by the right to life?

A. That in a government he not only has the right to protection against being killed by lawless persons, but to procure the necessary things to prolong life and make it comfortable and happy.

Q. What natural elements are the free gift of God to man that are necessary to sustain life and add to his comfort and happiness?

A. Land, water, air and sunlight.

Q. What would be the result if we were deprived of either or all of these for any considerable length of time?

A. We would sicken and die.

Q. Did God intend that all the people should enjoy these gifts, or only a part of them?

A. The earth was made for man, and all that is in it was designed for him.

Q. What then is the object of government?

A. To protect men in their natural rights—the weak against the strong—the good against the encroachments of the bad.

Q. What is the underlying principle upon which title to property is based?

A. Primarily, human necessity; secondarily, what a man earns should be his own. A man is naturally entitled to enough of the natural elements from which, by the application of his labor, to live comfortably. "In the sweat of his face he shall eat his bread." He is entitled to all he earns. "The laborer is worthy of his hire."

Q. Do all men have these rights?

A. They do. The right to the gifts of nature are inherent. No man has a right to abridge them. A government that permits it is not perfect. If one man possesses more property than he needs, and another not as much, the condition is abnormal, and if the poor man is industrious, there is something wrong in the economic system.

Q. How will the government provide against this condition?

A. By the abolition of all class laws, and giving all an equal show in the race of life.

Q. But even under these equal conditions some men would amass vast fortunes, on account of their greater natural shrewdness, while others would not be able to hold their own. How can a government avoid this?

A. The same condition exists in nature. The law of gravitation attracts everything to a common centre. All the water in the world would be in the ocean were it not for a compensating force or law supplied by the wisdom of God. The great lifting power of the sun draws the water into the air, where currents carry it back over the land and redistribute it in the form of rain. Let man learn from nature. As the concentration of water would lead to drought and result in death, so does the concentration of wealth in the hands of a few lead to starvation and death. To provide against this it is the duty of governments to enact a compensating law. A graduated income tax will answer this purpose. Let incomes of \$1,000 or less be exempt from tax. Let the second \$1,000 be taxed one per cent.; the third \$1,000, two per cent.; the fourth \$1,000, three per cent.; increasing the tax in like ratio until very large incomes will be taxed out of existence. In addition to this abolishment, by the government furnishing money at cost. Let all money be engaged in productive enterprise and in the development of the resources of the country.

Wolfe County F. & L. U.

The Wolfe County Union held its regular session with the Stillwater Lodge in Wolfe County, Ky., on the 25th and 26th days of July, 1891, and some important business was transacted.

H. S. Helton offered the following resolution, which was adopted, viz:

That we favor and endorse the Peoples party movement.

The following preamble and resolutions were adopted, viz:

Whereas, farmers and laborers are barely making a living, and all officers of the subordinate county Unions freely give their services; whereas, it becomes more manifest every day that the enemies of our order are seeking to defeat its purposes by sowing seeds of discord in its ranks, by maligning its leaders to take away their support, and by appeals to the passions feelings of many of our members who have been heretofore active supporters of one or the other political parties; whereas, all people should be educated upon all questions pertaining to civil government in order to insure, perpetuate or uphold a genuine Republic, therefore be it

1. Resolved, That the salaries of the president and secretary of the Kentucky State Union should be reduced to \$25 per month and incidental expenses.

2. Resolved, That we condemn the course taken by the Farmers Home Journal for the personal attack it made on the Hon. S. B. Erwin, ex-president of the F. & L. U. of Kentucky, who has devoted the past fifteen years of his life to the interests of the laboring masses, and who is at present the standard bearer of the Peoples party for Governor of Kentucky.

3. Resolved, That we deem the educational features of the reform movement the most important and vital, and therefore urge the members to subscribe for only such papers as are true exponents of the principles of the F. & L. U.

4. Resolved, That we recommend that the State Union establish a State organ, to be owned by the State Union; further, that said paper be furnished free of charge to each member of the order in good standing.

5. Resolved, That we endorse the action of the National Alliance held at Ocala, Fla., Dec., 1890.

6. Resolved, That we have the fullest confidence in all of our national leaders, and promise them our unwavering support in all their efforts in behalf of the great reform movement of this nation.

7. Resolved, That we tender our thanks to Bro J. H. Sebastian and Arrangers of the National Alliance held at Ocala, Fla., Dec., 1890, for the work which they managed the business of Wolfe County Union as president and secretary of same, and hope that their pathway in future may be strewn with flowers of peace and contentment.

8. Resolved, That we tender the Brotherhood and friends of this vicinity our thanks for the kindness and hospitality shown during our stay in their midst.

9. Resolved, That these resolutions and preambles be published in the HAZEL GREEN HERALD, National Economist, and Home Sentinel.

ESTRAY NOTICE.

The undersigned, Noah Wyatt, states that he has taken up as stray, on his farm in Wolfe County, about 2 1/2 miles southwest of Campbell, Ky., 8 or 9 acres, about 12 months old, of black and white spotted color, marked with smooth crop of each ear, and two spots in left ear and one split in right ear. I have left same unbranded by J. S. Cable, of Wolfe County, Kentucky, who advised the value of said hogs at \$8, and the owner of same has been by proving and paying charges for them.
